Tapeworm treatment is required for **DOGS** when travelling from Great Britain to EU listed tapeworm free countries including Northern Ireland, Malta, Ireland, and Finland. These dogs must be treated for tapeworm not more than 120 hours and not less than 24 hours before time of entry into one of these countries. **We therefore recommend you book your appointment 2-4 days before travelling to these countries so that both AHC and worming can be given in one appointment.**

Please select from one of the following options (not applicable to cats or ferrets):

I am travelling with my **DOG** to :

Northern Ireland

Finland

Ireland

Malta

If you are travelling to any of these countries, your AHC appointment must be booked with us 2-4 days before travelling

None of the above.

An AHC appointment can be booked with us 2-10 days before travelling

NB before returning to Great Britain, dogs must be treated for tapeworm not less than 24 hours and not more than 120 hours before time of entry except for return from Northern Ireland, Finland, Ireland, or Malta. You must take your AHC with you for this treatment to a vet in the EU country you are in.

If you are leaving Great Britain on a short trip and returning within 120 hours you need to have this treatment done before leaving.

I declare that the information entered above is accurate and correct. By submitting this form, I agree that Mounts Bay Veterinary Centre (or its agents) will use this information to complete an Animal Health Certificate (AHC) and any errors or omissions in the information I have provided may invalidate this AHC.
